# Pubert is the worldwide leader in tiller manufacturing

## Manufacturing yardwork and gardening tools: Pubert's history

Pubert is a family owned Company that was created in 1840 in Vendée and was producing ploughs. In 1960, the company started production of accessories for home gardening. In 1976, it was birth of the first Pubert tiller. And in 1987, Pubert made a ploughing endurance world record to prove the good quality of its products: non-stop 24 hours. It is in the Guinness Book.

## Innovation coming from 150 years of experience and know-how

Pubert is today number one in the world thanks to its long experience in soil preparation for gardening. Through years, the company has integrated new technologies to produce more efficient, easier to use, stronger and with competitive prices machines. An important part of its turnover is dedicated to the Research & Development of new technologies. Every year, the company applies for many patents, brands and models. Thus, the tiller range has battery tillers, very quiet, to answer new needs, especially to respect environment. Pubert know-how is made of its machines but also and mainly of men and women from this company from Vendée. At all production levels, well done work is important.

## 2012 Family Company Trophy awarded to Mr. Jean-Pierre PUBERT

On 5<sup>th</sup> April 2012, Bank SOCIETE GENERALE and NOUVEL OUEST newspaper awarded Family Company Trophy to Mr. Jean-Pierre PUBERT. The «Chênes du Grand Ouest» conferred on family companies that have kept values through generations as well as know-how but adapting to the nowadays world. PUBERT company was created in 1840 in Chantonnay; after 172 years, Jean-Pierre PUBERT represents the 6<sup>th</sup> generation. The Group employs today 250 persons.

### KEY DATES

**1997**

Pubert company launches the first tiller with pneumatic control that gives an unmatched confort use. «Safety trophy» at URBAVERT-URBATEC exhibition in 2000 rewards the efforts made in innovation and safety.

**2003-2011**

Pubert grasped opportunities of extension and external growth by acquiring companies (Kiva and Roques & Lecoeur).

**2004**

Turnover knows a strong progress thanks to international development.

**2007**

The oldest industrial company from Vendée becomes the first worldwide tiller manufacturer with 135 000 units produced per year.

**2008**

Production goes over 150 000 units and turnover is close to 60 million euros.

**2009**

The company creates the first battery tiller.

**2010**

Shredders complete the range of Pubert home gardening products.

**2012**

Pubert launches VARIO model, the first tiller with variable speed. Whatever the use (tilling or ploughing), speed rotation can change from 28 to 165 rpm.

**2013**

Pubert starts settling the Lean Manufacturing to «standardize diversity» of its products. The aim is to manufacture quality machines in a flexible organization remaining competitive.

**2014**

After 4 years of development and engineering, Pubert had success in showing to his French and foreign customers, in Val Thorens (France), his new range of snow throwers.

**2015**

Pubert launches ARO, a new tiller with 2 front gears and 1 reverse gear. Reliability, great robustness, and best quality/price.

The know-how of manufacturer

www.pubert.fr

for innovation

# Snow clearance

# Valto : a premium range for great performance

Valto is a premium range of robust, reliable and efficient snow thrower.

ProConsumer's use, the range is available in two working width.

Each product has a complete equipment allowing you to benefit from a very high level of comfort, maneuverability, safety and performance.

Developed by Pubert's R&D department, the impeller and auger are produced with high quality steel.

Cast iron transmission is lubricated with 80 W 90 oil and is protected by an impact bar.

Each auger shaft is equipped with safety pin.

### Driving:

> **Valto 24'** is equipped with a transmission type friction. Its design and ergonomics enable an easy manoeuvrability.

> **Valto 28' D** is equipped with a mechanical gearbox. It has a clutch release on one or other wheel, directly activated on handlebar, making easier the machine rotation in the desired direction.

> **Valto 28' i** is equipped with a mechanical gearbox. It is equipped with « EASY DRIVE SYSTEM ». This system enables an intuitive clutch release, on the wheel which needs it, for a soft and effortless driving. Whatever the orientation choice of the driver, the torque transmitted to one of the two wheels ensure a perfect manoeuvrability.

### For your comfort:

> Valto range has been designed and created for an optimal using comfort.

> Originally designed with a complete equipment (headlight, hand warmers, deflector and chute controls on handlebar, lockable auger clutch control for "one hand" driving, reversible steel skids, retractable blades, X-trac tires), Valto snow throwers are situated on a top range market.

## Valto 24

Working width	61 cm (24')
Gears	6 forward/2 reverse

# Maintenance of vegetable gardens

## Versatile Micro tiller: pleasure !

Made for tilling small areas in vegetable gardens or flowerbeds, this versatile tiller, with its accessories, enables to get rid of hard gardening work.

### The gardener's basic tool:

- > It enables to prepare soil effortlessly, tilling at a depth of 15 cm
- > Makes garden upkeep very easy and effortless (weed-removal in vegetable gardens and flowerbeds from mi-spring all through summer)
- > Perfect for mounding - which helps leeks, asparagus or potatoes grow in optimal conditions
- > Light and maneuverable, it is easy to use
- > Low noise, respect of neighborhood.

### ACCESSORIES (IN OPTION)

More information about versatile micro tiller

### Versatile Micro tiller

Environmentally-friendly engines with low fuel consumption

4 stroke engine can use pump-petrol, no need to mix it with oil

Quick and effortless start

Its handle makes it easy to carry (small, light and foldable for easy storage)

# Nano & Tillence: compact and light tillers

Nano and Tillence are the ideal tools for the amateur gardener who needs to have an efficient and friendly-user tiller. These tillers, very maneuverable and light, are used for the upkeep of small vegetable gardens.

Tillence, battery tiller (seal) will seduce the eco-minded gardener. Quiet, powerful, it doesn't emit any exhaust gases. Without any maintenance, it is created for a carefree use. With its reverse gear and its electronic tools, the Tillence is the most efficient of its category.

**They facilitate:**

- > The soil preparation for seeding and plantation
- > Tilling and weed removal without any effort and chemicals.

**Equipped with accessories they:**

- > Remove the moss of your grass (see dethatcher kit on page 35).

**More comfort with Tillence**

- > 100% recyclable battery
- > 2 forward and 2 reverse gears
- > Smart electronic card that manage the power, the loading and the effort of the machine
- > Easy and effortless start « ON - OFF » button type.

# Eco and Ecomax : easiness, maneuverability, efficiency!

Those competitive-priced models are fitted with a reverse gear to make it more maneuverable. Those machines get all the functions needed for a quality work.

#### It facilitates:

> Turning over the soil in preparation for sowing and planting.

#### For your comfort:

- > Adjustable working width
- > Easy to transport thanks to its retractable front wheel
- > Will not damage adjacent rows of crops thanks to its plant protection discs
- > Easy adjustable tilling depth, thanks to the adjustable spur (optional).

#### ACCESSORIES (IN OPTION)

**Adjustable spur**  
Ref 3001000046  
Gen Code 3700304806397

**Ridger kit with wheels**  
Ref 8000020104

# Elite : excellence for your garden

A fashionably designer and easy to use tiller. Perfect to quickly prepare an area up to 2,500 m<sup>2</sup>.

#### Great for:

- › Turning over the soil in preparation for sowing and planting.
- › A good quality of work thanks to its adjustable handlebar which avoid to walk on prepared soil.

#### Equipped with accessories, it can:

- › Do ridging work for you potatoes, leek or asparagus crops...

#### For your comfort:

- › Soft clutch lever for an effortless drive
- › They are equipped with a reverse gear, to make it easier to maneuver
- › Easy to transport thanks to a retractable front wheel
- › Adjustable working width
- › Will not damage adjacent rows of crops thanks to its plant protection discs
- › Easy adjustable tilling depth, thanks to the adjustable spur (optional).

ACCESSORIES (SEE DETAILS PAGE 12)

## PNEUMATIC CLUTCH SYSTEM

PUBERT invented the tiller with pneumatic clutch handle. This pneumatic clutch system brings a better prehension on the handles and an unequalled comfort to the user. Thanks to this new technology, clutching becomes smooth and gradual, it also enables a longer lifetime to the belt. «Safety trophy» at URBAVERT-URBATEC exhibition rewarded the efforts made in innovation and safety.

### Elite pneumatic clutch

Up to 2 500 m<sup>2</sup>

Working width 40/60/85 cm  
Gears 1 forward / 1 reverse  
Front wheel Retractable  
Weight 57 kg

#### Elite 60S D2

Engine Subaru EP 17  
Displacement 169 cm<sup>3</sup>  
Power 4 200 watts  
Ref 3000022401  
Gen Code 3700304800661

# Aro: a versatile and reliable tiller

Aro is a resistant, reliable and efficient tiller, worldly patented. Equipped with 2 forward and 1 reverse gears (Gear box with polymeric shell + steel gears), it enables to do many different jobs in your vegetable garden. Its easy preparation for its first use (less than 10 minutes) and its compactness (most compact tiller of the market, easy to transport/store) make this tiller convenient and comfortable to use.

#### It facilitates:

- › Turning over the soil for sowing and planting
- › Adaptation to the terrain thanks to its 2 forward and 1 reverse gears.

#### For your comfort:

- › 1<sup>st</sup> gear, from 60 to 80 rpm for difficult jobs at the beginning of the spring season (hard soil), and ideal for a ridger kit
- › 2<sup>nd</sup> gear from 140 to 160 rpm for soil preparation with an exceptional finishing
- › Safest reverse gear on the market (0,7 m/s)
- › Belt lifetime highly improved thanks to a new exclusive clutch system designed by Pubert
- › Transmission by chain, bolted, dismountable and greased
- › Foldable, height and lateral adjustable handlebar.

#### ACCESSORIES (SEE PAGE 12)

 until 2 500 m<sup>2</sup>

New clutch system with effortless control

Foldable, height and lateral adjustable handlebar

2 + 1 gearbox. Direct control with lever

6 times with protect-plants discs

Foldable front wheel

Bolted transmission

Working width **60/80 cm**  
Gears **2 forward / 1 reverse**  
Front wheel **Foldable**

# Vario, easy ploughing strength

VARIO is the perfect tool to « break » the soil, clean your vegetable garden, plough or ridge your potatoes. It is also a real technologic innovation with its new mechanical gearbox, conceived and designed by Pubert with aluminium alloy housing and steel processed gearwheels, 2 gears forward and 1 gear reverse. You will be seduced by its performance and low price level. This “first variable speed tiller” is easily adaptable to different type of work. Its working depth can go up to 32 cm. For a more flexible and smoothly work, you can choose the pneumatic version, a patented system that enables to extend the belt lifetime by five (see page 15). Here is the perfect and only tool to prepare soils up to 2500m<sup>2</sup>.

**It facilitates:**

> Turning over the soil in preparation of sowing and planting.

**For your comfort:**

- > Mechanical aluminium alloy gearbox : 2 forward and 1 reverse gears
- > Cable or pneumatic smooth clutch
- > Adjustable speed of tines rotation from 28 rpm-1 to 165 rpm-1

- > « Linear » sequential speed control, lever centralized on handlebar
- > 4 or 6 helicoidal tines (ploughing type), adjustable working width
- > Foldable, height and lateral adjustable handlebar
- > Elliptic handlebar
- > 1 retractable front wheel without tool
- > Easy adjustable tilling depth thanks to the adjustable spur
- > Protection discs to avoid damage the nearby crops
- > Soft touch handle.

# Quatro : tilling or ploughing (optional)

These easy convertible machines can till or plough all types of soils. They enable the user to prepare quickly areas over 2,500 m<sup>2</sup> and up to several hectares.

### Quatro Senior benefits:

- › High performance engines
- › Easy direction changes thanks to its locking differential
- › Increased smoothness and maneuverability thanks to its 3 forward and 1 reverse gears.

### Types of work:

› In addition of tilling, the machine can be converted into a traditional plough (optional). It enables to rapidly bury the top soil and residues from previous crops thus leaving a very clean area.

### For your comfort:

- › Easy driving thanks to the gearbox composed of 2 or 3 forward gears (according the model) and a reverse gear, managed by a gearbox
- › Easy to transport thanks to a removable front wheel
- › Adjustable lateral handlebar to avoid walking over freshly prepared soil. Adjustable in any way with only one handle
- › Large working width (6 helicoidal tines for a smooth working)
- › An easy adjustable working depth with an adjustable spur.

### QUATRO JUNIOR ACCESSORIES (IN OPTION)

# Rear tine tiller Roto: High performance in difficult terrain

This tiller works in all conditions, in all types of terrains. It can till thinly and make the soil ready for sowing. It works on areas over 2500m<sup>2</sup>. Rear tine tillers are made for lengthy tasks. They are perfect for regular soil upkeep, with the possibility to turn over large areas at a constant depth.

Whatever the type of soil, driving those tools will be smoothly and flexible. It is also possible to drive the rear tine tiller on its side with one hand, to avoid walking on prepared soil.

**Types of work:**

> Soil preparation by tilling.

**For your confort:**

- > Adapts to the terrain : tines can spin backwards on difficult surfaces, (on 500 model)
- > Working depth adjusted by a rack pinion system
- > Driving comfort : rear-positioned tines covered by a safety housing.
